

FOR IMMEDIATE RELEASE

FIMM Clarifies Source of Industry Data Presented at FSMOne Malaysia Recommended Unit Trust Awards 2026/2027

Kuala Lumpur, 6 July 2026 – The Federation of Investment Managers Malaysia (FIMM) wishes to clarify that the industry statistics presented by its Chief Executive Officer, Kaleon Leong, during his presentation at the FSMOne Malaysia Recommended Unit Trust Awards 2026/2027 were derived from the FIMM Investment Management Survey 2025 (“The Survey”).

The Survey provides a representative snapshot of participating organisations and is intended to complement publicly available industry statistics by offering additional perspectives on market developments, investor behaviour and asset allocation trends.

FIMM appreciates the interest shown by members of the media and industry stakeholders in the survey findings. To ensure the information is interpreted in the appropriate context, FIMM wishes to emphasise that the statistics presented were survey findings based on participating respondents and should be attributed to the FIMM Investment Management Survey 2025.

The full FIMM Investment Management Survey 2025 is available on FIMM's website at <https://www.fimm.com.my/resources/publications/survey-reports/> and serves as one of the Federation's ongoing initiatives to promote greater industry transparency and facilitate informed discussions on the continued development of Malaysia's investment management industry.
