WEEK 2 Invest Only In Approved Unit Trust Funds

There have been many instances of unlicensed people offering unapproved investment schemes with high returns. Their phone calls, emails or websites are intended to lure unsuspecting investors to invest into their unapproved schemes which promises high returns. Investors are not protected under the securities laws when they invest in illegal investment schemes. According to the Securities Commission (SC), an investor in an illegal scheme may also be violating laws by abetting the commission of an offence.

Unit trust funds are approved by the SC before they are offered for sale to the public by licensed intermediaries. These intermediaries are Unit Trust Management Companies, Institutional Unit Trust Agents such as banks and stockbroking firms; and unit trust consultants. All approved unit trust funds come with a prospectus which must be read and understood by investors. There are many rules put in place on unit trusts to protect investors' interest.

When in doubt, the public can verify whether the fund is an approved fund by logging on to FMUTM's website, www.fmutm.com.my. The general public can also verify the unit trust consultant status by asking for the FMUTM authorization card and checking on its validity or checking his/her status in FMUTM website. This can be done by entering the full name or identity card number or FMUTM registration number of the consultant.

- 6 The judging criteria are as follows:
 a) FOR WEEKLY PRIZES > Only entries with all correct answers are qualified to win. Each qualified entry will then be assigned a serial number. Selection will be based on the total

number of qualified entries received for that week divided by 3 (total number of prizes each week). The winning entries will be those with the serial number bearing the closest, whole number that resulted from the stated division, and multiples thereof.

For example: Received 20,007 entries but only 2,077 answered all questions correctly, hence only the 2,077 entries will be assigned a serial number. Formula > 2,077 ÷ 3 = 692.33.
